

Unified B2B, B2C, Dropshipping & Delivery Platform

Skynet TradeHub is an all-in-one commerce and fulfillment platform built for manufacturers, wholesalers, distributors, and brands that sell to both businesses (B2B) and consumers (B2C).

From multi-tiered B2B pricing to direct consumer checkout, automated dropshipping, and last-mile delivery — Skynet TradeHub streamlines your entire sales and fulfillment ecosystem under one platform.

Whether you're managing multiple companies, serving clients in different regions, or selling through multiple channels, this solution helps you sell more, automate faster, and operate smarter — all without inventory or operational stress.

Core Capabilities

Advanced B2B Sales Tools

- ❖ Tiered pricing, customer-specific discounts, and MOQ options
- ❖ Bulk ordering and quote request management
- ❖ Private B2B portals with custom catalogs
- ❖ Role-based access for buyers, resellers, and partners
- ❖ Tax, region, and payment rule configuration per client type

B2C eCommerce Capabilities

- ❖ Consumer-facing storefront with modern UI/UX
- ❖ Retail pricing, flash sales, and promotional campaigns
- ❖ Guest checkout and secure payment gateway integrations
- ❖ Product ratings, wishlists, and personalized recommendations
- ❖ Unified backend for managing both B2B and B2C orders

Inventory-Free Dropshipping

- ❖ List supplier products with real-time updates
- ❖ Auto-route and split orders between multiple suppliers
- ❖ Branded packaging and white-labeled fulfillment
- ❖ Live order tracking and status notifications
- ❖ Dropship for both B2B clients and end-consumers

Built-In Delivery App

- ❖ Assign deliveries automatically
- ❖ Real-time driver tracking and route optimization
- ❖ Proof of Delivery (POD), notes, and signature capture
- ❖ Support for in-house and third-party delivery fleets
- ❖ Push notifications for order and delivery updates

Multi-Company & Invoicing Engine

- ❖ Manage multiple businesses or brands from one dashboard
- ❖ Separate invoices, tax profiles, and financial reports per company
- ❖ Auto-generate invoices, receipts, and payment summaries
- ❖ Support for multi-currency and region-based tax rules

Seamless Integrations

- ❖ Connect with Shopify, WooCommerce, and other major platforms
- ❖ API-ready for ERP, CRM, or accounting software integration
- ❖ Real-time syncing for products, orders, and customers
- ❖ White-labeled design, portals, and notification systems

Who It's For

- ❖ Manufacturers selling to distributors and consumers
- ❖ Wholesalers running multi-brand operations
- ❖ B2B & B2C marketplaces
- ❖ Distributors managing multi-channel sales
- ❖ Private-label and white-label product suppliers

Why Choose Skynet TradeHub?

- ❖ Unified platform for B2B, B2C, and Dropshipping
- ❖ Complete delivery and fulfillment control
- ❖ Multi-company and multi-brand support
- ❖ Zero inventory model for scalable growth
- ❖ Real-time automation for sales, invoicing, and logistics

Let's Build Smarter Commerce Together

Skynet TradeHub gives you the flexibility to serve every market — from global distributors to local consumers — through one intelligent platform.
